

WHY WE MUST VOTE

"A vote is like a rifle: it's usefulness depends upon the character of the user."

- Theodore Roosevelt

Each vote cast represents your lone opportunity to take a shot at meaningful change. Not every shot hits the mark during a battle; but the more riflemen deployed to the battlefield, the greater the chances of victory!

Avoid problems this election cycle by...

- Voting in person on election day at vote centers with fully functioning equipment and/or low wait times (see your recorder's office to find out where you can legally vote).
- Voting early in person if you expect to be unable to vote in person on election day.
- Turning in your mail in ballot to a vote center on election day or at a designated ballot drop off location (this removes the possibility of your ballot mistakenly being sent to Phoenix's central postal processing center which can cause delays in the counting of your vote).
