Bio – LD19 Executive Committee Elections – 4th Vice Chairman

November 14, 2026

In response to the Call for Nominations for Legislative District 19 Republican Party Executive Committee positions, I wish to place my name in nomination for the position of 4th Vice Chairman. I think the following background description provides ample evidence as to why I would be a excellent candidate for this position.

I have been a resident of the State of Arizona since 2001. I moved my family (wife Cheryl, three Children Savannah, Karl Jr, and Kurtis) here from Southern California, when I realized how damaging the ethics and mindset in that State was to families. I settled on Southeast Arizona as this are epitomizes the individual rights ethos that this country has grown great on. The combination of the Agricultural/Mining economy of the more rural Cochise County area, combined with the White collar Professional area of Pima County, provides a powerhouse situation that can take advantage of all economic conditions and make this a prosperous and agile system providing opportunity for all of our residents.

Educationally/Professionally, I have a Bachelors Degree in Aerospace Engineering from the University of Michigan, and a Masters of Business Administration concentrating in Internation Economics from California State University. During my 40 year career in the Engineering field I have progressed through the ranks of System Engineering into the highest levels of Engineering Management. My education provides me the pragmatic problem solving skills necessary to resolve complex issues, as well as the nuanced art of Management perspective from the tools developed in the business world.

My involvement in the political world started in High School when I worked on Gerald Ford's run for the Presidency at the Republican National Headquarters in Washington DC. This experience provided me the rare opportunity to have a personal discussion with he President of the United States regarding life on the campus of our shared Alma Mater. His event formed my world view, based on his behavior, that our political leaders are not "special" and should only be held in the sane regard that they show to us. I bring that degree of humility to my interactions with people in all walks of life. I have been an elected Precinct Committeeman in this legislative district for 8 years, and am now capable of stepping up to a more encompassing role.

Thank You for processing this Nomination appropriately.

Yours,

Karl Fiebelkorn
